

## Pairing and Activation Guide

Equipment: Panasonic DECT Base Kit KX-TGP600

### Panasonic DECT Base Activation

To activate this base unit, turn on the Panasonic DECT handset the was included with the base unit. The Initial handset in the KX-TGP600 Kit box and the base are paired together at the factory. All other handsets (up to 8 grand total per base) need to be paired to the base and are activated individually

Activating the Base (which activates the initial handset automatically)

1. Type any number on the handset and press the green call button.
2. The announcement will request you enter the Activation Code for the base.
3. Enter the Activation Code you received, similar to that shown below.

Base Activation Code (Example) 2931 4692 8161

### Panasonic DECT Handset Registering (Pairing and Activation):

[This pairs the handset to the base that has already been activated and activates the handsets]

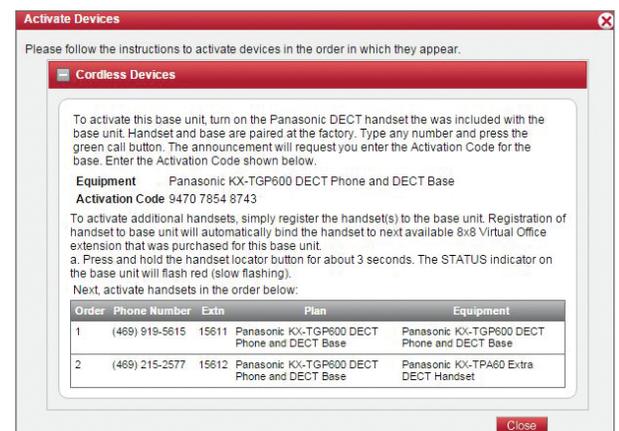

1. Preparing the Base Unit to Register (pair and activate) a handset:
  - a. Press and hold the handset locator button for about 3 seconds.

The STATUS indicator on the base unit will flash red (slow flashing).

2. Registering (Pairing and Activating) an Unregistered handset/desk phone:

[When adding a new handset/desk phone, refer to images below]

- a. In standby mode, press and hold OK until displaying "Please Wait . . ."
- b. After Registered is displayed on the LCD, the registration is completed.

**Activate Devices**

Please follow the instructions to activate devices in the order in which they appear.

**Cordless Devices**

To activate this base unit, turn on the Panasonic DECT handset the was included with the base unit. Handset and base are paired at the factory. Type any number and press the green call button. The announcement will request you enter the Activation Code for the base. Enter the Activation Code shown below.

**Equipment** Panasonic KX-TGP600 DECT Phone and DECT Base  
**Activation Code** 9470 7854 8743

To activate additional handsets, simply register the handset(s) to the base unit. Registration of handset to base unit will automatically bind the handset to next available 8x8 Virtual Office extension that was purchased for this base unit.

a. Press and hold the handset locator button for about 3 seconds. The STATUS indicator on the base unit will flash red (slow flashing).

Next, activate handsets in the order below:
